BISSELL'S REPORT

The Postmaster General Makes His Statement.
HE SHOWS THE WORK FOR EACH DAY.

The Report is a Clear One—The Postmaster General Vouches Legitimate Publications Sent Postage Free. The Amount of Business.

WASHINGTON, November 26.—It is seldom that much human interest is found in the pages of the formal annual report of a government officer, but Postmaster General Bissell has succeeded in proving the exception to the rule in his account of the operations of the postoffice department during the past twelve months, which he has just submitted to the president. It contains a number of novel, almost unique, suggestions and recommendations. The policy which Mr. Bissell has outlined may be briefly given in his own words: "In general," he says, "I would recommend that the most important thing to be done is to revise the law as to second-class mail matter, so as to place the postoffice department immediately upon a self-sustaining basis; second, avoid expensive experiments, like the postal telegraph, rural free delivery, etc.; third, develop the postal service on existing lines of administration, viz. Extend free and free in towns that enjoy it, accord to towns that are entitled to it under the law and quicken railroad transportation."

He also recommends that all legitimate publications now carried through the mails as second class matter be transported free. To show the magnitude of the postal service he incorporates the following table in the report. It is for one day and shows: Number of miles of post route, 1,100,000; number of stamps manufactured, 2,300,000; number of letters mailed, 1,800,000; number of postal cards manufactured, 1,500,000; number of pieces mailed, 7,000,000; number of letters mailed, 7,400,000; number of pieces of newspapers, 27,500,000; number of pieces handled in dead letter office, 23,000; daily transactions in money order business, \$1,100,000; daily expenses, \$21,100.

The deficiency in postal revenues for the fiscal year, ended June 30, 1894, was \$2,343,933. The total revenue was \$24,000,497, and the total expense was \$26,344,430. For the current fiscal year Mr. Bissell estimates that the expenditures will amount to \$60,300,488, leaving a deficit of \$36,300,000. He estimates for the fiscal year ending June 30, 1895, that the expenditures will be \$61,481,275, and the deficiency at only \$4,181,275.

Mr. Bissell makes a strong argument for civil service reform in the postoffice department. He contends that it should be extended wherever practicable, and that it is a stimulus to the best work. He presents facts and figures to prove these assertions. As a more radical extension, Mr. Bissell suggests that the lower grade—the fourth class—of postmasters might be included within the benefits of the civil service law.

TOO MUCH FLOUR.

The Mills of St. Louis Have Closed for an Indefinite Period.
St. Louis, November 24.—Every flour mill in this city has closed down for an indefinite period. The reason given by the millers is that the market is glutted with flour and suffering from over production. A different view of the situation is taken by local dealers who point to the fact that the mills are suddenly closed at a time when the question of cheaper bread is being vigorously agitated by the newspapers. So much flour in the sale of bread has been discovered that the city council is considering a measure to compel dealers to sell bread by weight.

THE PENSION BILL.

WASHINGTON, November 24.—Pension Commissioner Lochren yesterday explained his estimates to the house appropriations sub-committee having charge of the pension appropriation bill, and it was virtually decided to frame the bill according to the estimates heretofore made public by the pension commissioner, except that the item of surgeon's fees will be reduced from \$1,000,000 to \$800,000. Mr. Lochren yesterday modified his previous estimate on this item. The pension bill for the next fiscal year, as it will be framed, will carry \$141,381,670.

THE COTTON SITUATION.

Landauer, the New Orleans Export Gives His Opinion of the Crop.
New York, November 23.—The cotton situation is exciting particular interest this week and the fluctuations in the price of the staple have been very wide, with indications of a final rally from the lower range. Among the expert opinions on the outlook that were considered yesterday was that of A. J. Landauer, of New Orleans, who said that he saw no reason to believe that anything over 9,000,000 bales, if that much, will be market and count for the 1894-95 crop.

HIS WEDDING DAY.

The Marriage of the Czar Will Carry Happiness to Many.
St. Petersburg, November 26.—On his wedding day the czar will issue manifestos remitting arrears of taxes and some sentences and record other acts of clemency. When he received the ministers Saturday he welcomed them with special courtesy and cordiality, saying that he hoped they would work together for a long time.

Perito Coming to America.
The United States will soon be visited by Ex-President Perito. The ex-president is in bad health, the result of overwork, incident to the revolution in his country, and anticipates a tour.

COLUMBUS IMPROVEMENTS.

Street Car Lines to Have the Latest Electrical Equipments.

COLUMBUS, Ga., November 23.—An important railroad deal has been completed here which results in the consolidation of the North Highlands Electric railroad company and the Columbus Street railway company. The latter company has recently effected arrangements with a wealthy northern syndicate for a thorough equipment of the horse car line and the dummy line to Wildwood, with electricity, and it was deemed best by the officials to have a consolidation with the North Highlands electric line. It is believed that the consolidation will be a great benefit to the city, and infinitely better for the stockholders. The lines of both companies will be operated by the Columbus which will have the largest and best equipped electric railroad of any city of its size in the country.

REPUBLICAN WITHDRAWS.

He Says He is in Doubt and Refuses to Contest.
LINCOLN, Neb., November 26.—The proceedings begun by the republican state committee on behalf of Lieutenant Governor Majors against Judge Holcomb, governor-elect, were dropped today, and there will be no contest. Tomorrow was the limit of time for filing the notice and today after a conference it was decided to abandon all proceedings in that direction. A letter from Mr. Majors himself was presented to the republican managers, in which he deprecated what he terms an "unseemly scramble for an office, the right to which is in doubt." Acting on this, the committee declares the proceedings closed, and the contest a thing of the past.

TO PROTECT SILVER.

New York Wants to Control the American Output and Bar London.
NEW YORK, November 23.—Daniel Guggenheimer, who is president of the Guggenheimer Silver Smelting and Refining company, states that no syndicate is contemplated to buy mines or control the product. He hopes that through sales at one point and establishment of a central market speculation in silver, which is largely controlled by London brokers, may be done away with and the price of silver kept stable. Supply and demand could be kept track of, and he believes American producers could sell their silver direct to India, China and Japan instead of through London. New York would thus control over two-thirds of the world's output of silver.

OEN. HASTINGS FOR PRESIDENT

Pennsylvania Republicans Think the Governor-Elect Would be a Strong Candidate.
PHILADELPHIA, Pa., November 24.—Politicians are devoting some attention to the rumor that Governor elect Hastings will be a candidate for the presidential nomination in 1896. The announcement of his selection of cabinet officers shows that his administration will be popular with the whole party in Pennsylvania. It is therefore believed that Senator Quay will support General Hastings for president. If he does, it is not improbable that he will secure the assistance of Thomas C. Platt, in New York; Joseph C. Manley, in Maine; and Ex-Senator Sewall, in New Jersey.

MINERS MAY WITHDRAW.

Were Denied Admission to the Knights of Labor Convention.
COLUMBUS, O., November 23.—John McBride, who is the head of the miners' division of the Knights of Labor, is preparing a circular to the local organization, setting forth the fact that at the national convention of the Knights of Labor, he and his associates were denied representation, and asking them to send delegates to their convention here in February next, instead of to take action in the matter. No doubt the miners will withdraw from the Knights of Labor. There are about 7,000 of them.

FRAUD IS CLAIMED.

The Governor Will Prosecute Election Swindlers at Once.
KANSAS CITY, Mo., November 26.—Yesterday morning it was authoritatively announced that Governor Stone would at once remove Charles S. Owens, recorder of voters for Kansas City, on account of the frauds perpetrated in his office. H. Clay Arnold, a druggist, and chairman of the democratic county committee, will be appointed to succeed him. It is also stated that the governor will appoint an assistant attorney general for this county to prosecute election frauds, the present officer being accused of dereliction of duty.

PRESIDENT CLEVELAND BETTER

The Sprained Ankle Yielding to Treatment and He Passed a Better Night.
WASHINGTON, November 24.—Yesterday's official bulletin, through Private Secretary Thurber, in regard to the president is that he is better. Mr. Thurber now acknowledges that the president sprained his ankle. The truth is that Mr. Cleveland passed a better night and the sprain is yielding to treatment, but it is hardly thought he will be able to move about comfortably for some time yet.

DECLINED TO JOIN THEM.

Governor Fishback Will Not Become a Silver Party Man.
LEFLE, Ark., November 23.—Governor Fishback, in answer to an invitation to join the silver party, declined to do so. He said that he would be organized next week at St. Louis, wrote a letter yesterday to A. J. Warner, chairman of the bimetallic league, in which he said: "I will not follow any set of impracticables into a new party. The democratic party is the only one through which we can secure free and unlimited coinage of silver."

Nothing Left But Ashes.

CHARLESTON, S. C., November 26.—Marion N. C. was reduced to ashes yesterday. Loss not known.

NEWS OF THE SOUTH

Bill Against all Railroad Combinations in Georgia.

THE KNIGHTS OF LABOR CONVENTION.
Severe Wind Storm in Mississippi—Judge Allison's Slaying Dead—Bishop Howe of South Carolina, Dead—Other Southern News.

SAVANNAH, November 24.—The Savannah board of trade is making an effort to break the combination of different railroad lines now known as the Southern railroad company. It is also making a determined effort to prevent the Central railroad. The fight took shape yesterday in the house of representatives when a bill was introduced prohibiting the leasing of railroads by competing lines. This bill was introduced at the instance of D. G. Purse, president of the Savannah board of trade. The board is making an effort to make to reorganize the Central and to place it under the control of the Southern railroad company. Mr. Purse claims that if this done that Savannah will be discriminated against, which will mean a loss of over \$100,000 a month to the business men of that city. The bill will be fought by the railroads, for it will, if passed, cause the dissolution of one of the strongest combinations in the country. The measure has proven the sensation of the session.

KNIGHTS OF LABOR.

The Annual Convention Has Completed Its Labors and Adjourned.
NEW ORLEANS, November 24.—The knights of labor convention has adjourned. At the meeting yesterday morning a resolution was adopted protesting against the issue of new government bonds by the secretary of the treasury, and characterizing the issue as a fraud and an outrage upon the masses, infringing violation of existing laws, and intended solely in the interest of the money powers and the bondholding aristocracy. The next convention will be held in Washington in November of next year. Previous to final adjournment, General Master Workman Sovereign called Kenney, of the executive board to the chair and took the salary of the general master workman be reduced from \$3,500 to \$2,500 per annum. Motion was carried.

A SEVERE WIND STORM.

Meridian Badly Damaged by a High Wind and Rain.
MERIDIAN, Miss., November 24.—A severe wind and rain storm visited this city yesterday afternoon doing considerable damage to stores and goods. The large store of Harris Bros. J. S. Baum & Son, A. J. Peck and the Meridian machine and foundry sustained damage to buildings and contents. Window shutters, signs and awnings were swept away and the towers of the Central school building were demolished. Trees were uprooted, fences demolished and a negro church wrecked. Many residences were more or less damaged.

AN EARTHQUAKE.

Parkerburg, Va., Shaken Until Windows Rattled and Clocks Stopped.
PARKERSBURG, W. Va., November 24.—Yesterday morning about 4 o'clock an earthquake shock was sensibly felt in this city. It lasted only a few seconds, and was followed by vibrations and deep rumblings. Windows rattled and a number of clocks were stopped. At police headquarters the police were shaken up and ran out believing the shock was caused by safe-blowers blowing open a safe in town. The effects of the shock were distinctly marked at the weather bureau.

BRIGHTER TIMES AHEAD.

Bradstreet Says a Slight Advance in Cotton is Encouraging.
NEW YORK, November 24.—In the review of the week Bradstreet's commercial agency says that the outlook for the south is much more encouraging. "This," it says, "is due to a favorable influence in a moderate advance in the price of cotton, due to the greater favor with which lower estimates of the size of the cotton crop are being received, and to prevalence of the opinion that the price of cotton is too low."

TO CONTROL THE ROAD.

A Syndicate Said to be After the Southern Railway.
NEW YORK, November 24.—It was currently reported in Wall street yesterday afternoon that a foreign syndicate had purchased round amounts of the securities of the Southern railway company, partly with a view of having them listed on the London stock exchange. Drexel, Morgan & Co. stated that such a syndicate had been formed, but would not give the amount of securities taken.

PRESBYTERIAN SYNOD.

The Alabama Session Well Attended by Ministers and Elders.
MONTGOMERY, Ala., November 23.—The session of the Alabama Presbyterian synod has been largely attended, there being forty-five ministers, and thirty-one ruling elders present. The three Presbyteries of the state were all well represented. The synod will adjourn tonight, the last service being on the subject of foreign missions.

AN EX-CONGRESSMAN DEAD.

He Was Assaulted by a Highwayman and Died.
WASHINGTON, November 26.—E. S. Hamlin, founder of the Cleveland Independent and a member of congress from Ohio before the war, died here yesterday, aged eighty-six years. His death was due indirectly to an assault two months ago by a negro who attempted to rob him. He was one of the first free soil editors in the United States.

BRICE MAY RETIRE.

He Thinks of Devoting His Entire Time to Railroad Business.
NEW YORK, November 24.—It is said that Senator Calvin S. Brice will go out of politics and will soon devote his whole time to railroad business, extending the Lake Erie and Western to St. Louis and other important points.

ORE WILL ADVANCE IN PRICE.

Prediction That the Next Year's Figures Will Greatly Increase.

CLEVELAND, O., November 23.—The Iron Trade Review says: The probability, amounting almost to a certainty, that higher prices will be paid in 1895 for coke and for Bessemer ores; the fact that up to November 1st, stocks of pig iron had been increasing slightly in the face of steadily decreasing output that reached a yearly rate of nearly 8,500,000 tons on that date; the further fact that any noticeable increase of Bessemer pig iron consumption will call into activity furnaces which must have a higher price for their iron than that ruling today—these are the prime elements in any forecast of the iron and steel situation that reaches into the next year. One—the country's consumption of steel in the past few months has been at a rate never equaled in its history with the railroads.

VOUCHERS MISSING.

The Trial of Captain Howgate Furnishes a Decided Sensation.
WASHINGTON, November 24.—The trial of ex-Captain Howgate is threatened with serious complications by the discovery yesterday that vouchers signed by Howgate and supposed to be fraudulent, are missing from the office of the second auditor of the treasury, where they had been held for use by the government in prosecuting the case against Howgate. Their disappearance was, it is supposed caused by persons who would suffer no little embarrassment during the course of a trial of Howgate by the presentation of these vouchers, and the impression in some quarters is that a consideration of some nature and somebody familiar with the second auditor's office, has much to do with the loss of these important papers. The amount of money involved is \$130,000.

KANSAS CITY FIRE.

Many Elegant Residences Made Fuel for the Flames.
KANSAS CITY, Mo., November 26.—Fifteen residences occupying the square between Twenty-fifth and Thirtieth streets and Garfield and Euclid avenues were completely destroyed by a fire which broke out at noon yesterday. Most of the houses destroyed were costly structures and were located in the most aristocratic portion of the city. Some of the occupants of the burning dwellings tried to save their furniture by carrying it out to the street, but the flames were so fierce that the furniture caught fire and nothing was saved. The loss will aggregate about \$85,000 with \$40,000 insurance.

AN EARTHQUAKE.

Parkerburg, Va., Shaken Until Windows Rattled and Clocks Stopped.
PARKERSBURG, W. Va., November 24.—Yesterday morning about 4 o'clock an earthquake shock was sensibly felt in this city. It lasted only a few seconds, and was followed by vibrations and deep rumblings. Windows rattled and a number of clocks were stopped. At police headquarters the police were shaken up and ran out believing the shock was caused by safe-blowers blowing open a safe in town. The effects of the shock were distinctly marked at the weather bureau.

BRIGHTER TIMES AHEAD.

Bradstreet Says a Slight Advance in Cotton is Encouraging.
NEW YORK, November 24.—In the review of the week Bradstreet's commercial agency says that the outlook for the south is much more encouraging. "This," it says, "is due to a favorable influence in a moderate advance in the price of cotton, due to the greater favor with which lower estimates of the size of the cotton crop are being received, and to prevalence of the opinion that the price of cotton is too low."

TO CONTROL THE ROAD.

A Syndicate Said to be After the Southern Railway.
NEW YORK, November 24.—It was currently reported in Wall street yesterday afternoon that a foreign syndicate had purchased round amounts of the securities of the Southern railway company, partly with a view of having them listed on the London stock exchange. Drexel, Morgan & Co. stated that such a syndicate had been formed, but would not give the amount of securities taken.

PRESBYTERIAN SYNOD.

The Alabama Session Well Attended by Ministers and Elders.
MONTGOMERY, Ala., November 23.—The session of the Alabama Presbyterian synod has been largely attended, there being forty-five ministers, and thirty-one ruling elders present. The three Presbyteries of the state were all well represented. The synod will adjourn tonight, the last service being on the subject of foreign missions.

AN EX-CONGRESSMAN DEAD.

He Was Assaulted by a Highwayman and Died.
WASHINGTON, November 26.—E. S. Hamlin, founder of the Cleveland Independent and a member of congress from Ohio before the war, died here yesterday, aged eighty-six years. His death was due indirectly to an assault two months ago by a negro who attempted to rob him. He was one of the first free soil editors in the United States.

BRICE MAY RETIRE.

He Thinks of Devoting His Entire Time to Railroad Business.
NEW YORK, November 24.—It is said that Senator Calvin S. Brice will go out of politics and will soon devote his whole time to railroad business, extending the Lake Erie and Western to St. Louis and other important points.

All druggists guarantee Dr. Miles' PAIN PILLS to stop headache. "One cent a dose."

TO CONTROL TRADE

An Immense Syndicate of American Cotton Planters.

A MILLION DOLLARS AT THE START.
One Bale in Every Five to be Reserved to Keep the Price Up—A New York Broker Originated the Scheme.

ATLANTA, November 23.—An important meeting of cotton growers, representing several states, occurred in Atlanta today. The meeting was presided over by Hector D. Lane, commissioner of agriculture of Alabama. After some discussion the plan as announced by Mr. Rodley was, on motion, recommended. Chairman Lane and one or two others dissenting. A committee was appointed consisting of J. T. Rodley, H. S. Lipscomb of South Carolina, and J. E. Nunnally of Georgia, to call county and state conventions for the election of delegates to an interstate convention, to be held at a time and place agreed upon by the committee. Mr. Rodley's plan, as explained by him, is to form a combination of the cotton growers with a capital of \$50,000,000 or \$100,000,000. Each cotton grower is to contribute one bale out of every five to the trust. Estimating the crop at eight million bales, this plan would stock the trust with 1,600,000 bales, the withdrawal of which from the market, it is urged, will appreciate the price twenty-five per cent. One general office is proposed with branch offices and warehouses at all cotton receiving points. The plans in every county are to be listed, and if possible controlled, so as to know the exact production and to regulate the supply of cotton. In regard to the management of the company, it is to have one general or head office, say in New York or New Orleans, with two general directors from each cotton growing state; have one office in each state, with one director from each county in that state, and have sub-offices in all the principal cities and towns in the different states to control the local cotton.

ALABAMA SYNOD.

The Colored Presbyteries Ask for Recognition and Receive It.
MONTGOMERY, Ala., November 23.—At the Alabama Presbyterian synod yesterday resolutions were passed expressing regret at the failure of the general assembly at its session at Nashville to appoint a committee to meet a like committee from the northern general assembly in session at Saratoga to confer about such matters as seem to be in the way of closer relations between the two churches. Resolutions were also adopted receiving the colored Presbyteries of Alabama under the care of the synod, this being done at their request.

A WALKOVER FOR ELKINS.

Apparently No Opposition to Him for West Virginia's Senatorship.
WHEELING, W. Va., November 24.—A canvass yesterday by the republicans elected to the legislature practically removes all doubt of the election of Elkins to the senate. Every member from the second and fourth congressional districts has declared for him, as also has over half of the members in the first and third districts. It is now believed that the other candidates will withdraw and that there will be no contest in the caucus.

THEY WANT TOM REED.

Republicans Say He Will be the Speaker of the Next House.
WASHINGTON, November 23.—It is generally conceded by republicans here that Tom Reed will be the next speaker of the house. For clerk, the following names have been suggested: Thomas A. McKee, Congressman McDowell, of Pennsylvania, and Congressman Henderson, of Illinois. Representative Houk, of Tennessee, is mentioned as a strong candidate for secretary of the senate.

BUSINESS REVIVING.

Increased Orders for Postage Stamps Indicate Better Times.
WASHINGTON, November 24.—Mr. Kez Craig, the third assistant postmaster general, who has charge of matters pertaining to postage, said yesterday that greatly increased orders for stamps from all parts of the country showed that business was reviving rapidly.

WHAT CHINA MAY PAY JAPAN.

Alleged Purpose to Offer About One Hundred Million Dollars Indemnity.
LONDON, November 24.—A dispatch from Hiroshima says that advices from China intimate that the Chinese government will offer an indemnity of \$100,000,000 taels, and also defray the expenses of the war as conditions of peace.

AN INCREASE OF CORN.

RALPHIGH, N. C., November 23.—Advance reports of the United States agriculture department giving the production of corn in each of the southern states, shows an aggregate increase in the south in 1894 over 1893 of 48,000,000 bushels, making a total production in the south of nearly 500,000,000 bushels.

China Waking Up.

LONDON, November 27.—The Times publishes a dispatch from Shanghai, stating that the Viceroy of Nankin, Chang Chio Tung, has been ordered to Peking for the purpose of reorganizing the army after the European model.

THE WALTERS FUNERAL.

The Noted Lover of Art Buried at Baltimore.

BALTIMORE, November 26.—The funeral of the famous art collector, William T. Walters took place at Greenmount cemetery yesterday. The prominent feature of the magnificent art gallery of Mr. Walters, the finest private collection in the country, is a matter of deep interest to nearly every person in this and to very many in other cities. Many rumors have spread concerning the collection and its fate, among them one to the effect that the treasures were to go to the Metropolitan Museum of Art in New York, or to the Cosmopolitan Museum there. President Henry Marquand, of the former, stated last night he had received no notification of a disposition of the collection. Those near to the late Mr. Walters during the later years of his life say that no one knows what disposition he has made of his gallery, and no one will know until his will is read. Until such information is gained all reports and rumors must be speculative and based on no accurate knowledge. Mr. Walters was a most self-contained and retiring man concerning his own affairs, and, in all probability, never spoke to any one of his intentions concerning the disposition of his art treasures after his death.

TENNESSEE'S NEXT GOVERNOR.

Democrats are Slow About Admitting That Evans Has Been Elected.
NASHVILLE, Tenn., November 24.—Up to this time it is not known officially whether Peter Turney, democrat, or H. Clay Evans, republican, has been elected governor of Tennessee. According to footings made at party headquarters, and in newspaper offices, the official returns show Evans to have carried the state by about two thousand. It has been understood that the returns from every county have been in the hands of the Secretary of State Morgan for several days. Yesterday there was consultation of Secretary Morgan, Attorney General Pickle and other officials, and it was decided that the returns should not be made public until the poll books had been sent in from every county. This delay in announcing the returns following upon the recent announcement of Judge McGee, that the election of Evans would be conceded until the election frauds charged against the republicans had been thoroughly investigated, has excited the republicans.

BANKS WANT THE BONDS.

A Syndicate That Will Four Gold into the Treasury.
NEW YORK, November 24.—It was reported today that after a protracted conference a syndicate has been made up to take one-half of the \$50,000,000 government loan. President Stewart of the United States Trust company and his friends subscribed for the other half. The new syndicate is said to comprise Chemical Bank, the Bank of America, the Bank of Commerce, the Fourth National and the Bank of Commerce. These banks are among the largest holders of gold and if they take the loan, the treasury will be a big gainer of the yellow metal. The agreement of this city of the bank of Montreal to receive \$100,000 in gold from Canada this week and \$400,000 next week. It is understood that this gold is to be put for subscriptions to the government loan.

AN ACCIDENTAL BLOW.

The Coroner's Jury Did Not Blame Fitzsimons For Killing Riordan.
SYRACUSE, N. Y., November 23.—The inquest touching the death of Charles Riordan, who was killed in sparring with Robert Fitzsimmons, in the H. H. Jacobs opera house last Friday, was held last night before Coroner Roberts and a jury. The jury brought in the following verdict: "We find that Cornelius Riordan came to his death on the evening of Friday, November 23, 1894, from an accidental blow delivered by Robert Fitzsimmons, while engaged in a sparring match in the stage of the H. H. Jacobs opera house. We exonerate Robert Fitzsimmons from all blame."

A LUMBER POOL.

Minnesota Timbermen Will Unite for Their Own Advantage.
MINNEAPOLIS, November 24.—The lumbermen of Minneapolis who are cutting on the upper Mississippi and its tributaries have decided to form a big log pool and a committee is now working out the details. The first will subscribe stock in the pool to the amount of the logs they want to get out of the cut. The pool will then buy all logs by sale at the bank and intend to driving and sorting them, selling them to the mills as wanted by cutting. The plan will do away with branding the logs and sorting them, is now necessary, and in other ways will save the lumbermen much expense. The pool will cut a total of 518,000,000 feet.
